European Rotaract Information Center

Name of the project: Leave a Mark on Peace

Organizing club: Rotaract Club of Karsiyaka and Rotaract Club of Bucharest

Contact person: Letitia Stefan and Andreea Grama

Email address: kurtulusmugee@gmail.com

I. ANALYSIS, OPPORTUNITIES AND MAIN IDEA FOR THE PROJECT.

1. ANALYSIS OF THE PROBLEM WE WANT TO SOLVE

We wanted to show that we can do a project together even if we are in different districts. Bucharest Rotaract Club is in the 2241st district and Karsiyaka Rotaract Club is from the 2440th district. For this reason, we wanted to realize a peace-themed project.

2. OPPORTUNITIES

Since both clubs were very keen on spending time with children, the project was organized easily. The project had the chance to be seen by more people. The project was made into a video and shared on social media.

II. HOW TO EXECUTE THE PROJECT

1. ACTION GROUP

Our community services committee chairman: was responsible for the materials required for the project and communication with the principal of the school where we would carry out the project. He talked to the school about the day and time.

The club secretary: guided the individuals who would participate in the project and collected participation information.

The president: contacted the other club president and ensured all communication and organized a meeting.

2. DESCRIPTION OF THE PROJECT

The project was carried out to emphasize peace. For this reason, the project was carried out together with children. The reason why it was established as a club from two different regions was to emphasize world peace.

3. GOALS OF THE PROJECT

The goal was to carry out a project with children together with a club from another region. It took place with approximately 40 children.

4. TARGET AUDIENCE

The target group was children and it was carried out directly together. It was very meaningful and enjoyable for them.

5. ACTION PLAN & TIME FRAME

2 months before:

- Online meeting with other clubs
- Talk about the project
- Determining materials and design
- Location determination

1 month before:

-Since the project will be carried out outdoors, it is time to discuss the appropriate time for the two cities.

2 weeks before:

-Going through requirements and project design.

* Throughout this process, details were always discussed in the previously established WhatsApp group.

*After the project, a drive file was opened and the photos were shared there. Social media consultant prepared a reel video.

Brief description of each step

- Online meeting with other club.
- Whatsapp group.
- Determining materials and design.
- Location determination.
- Clarifying the dates with the relevant people in the institutions.

Since the project would take place outdoors, worsening weather conditions could make the project impossible on the same day.

6. RESOURCES

There was no sponsorship.

7. BUDGET

28 Euro

III. RESULTS

1. RESULTS AND OVERVIEW

Communication between the two clubs was very easy. Everyone was very open to collaboration, so the project design part went very smoothly. Since the materials were easily available, we had no difficulties. There were no problems in communication with the school.

2. ADVICES

It is a project that can be carried out easily as long as there is someone who speaks English. I am very sure that other clubs will be open to cooperation since its aim is world peace. I recommend that they hold frequent meetings and establish a WhatsApp group for the project.

3. SUSTAINABILITY

Since communication with the club has been established well, it is a project that can be easily repeated every year. Maybe it can be realized by coming together with clubs from several different regions in the coming years.
